Blacksmithing. One door West of Bain Wagon Depot. 1226

GRANT & CLAYTON, INSURANCE And Loan Agents. Office, No. 11 First South Street. J4

RECIPT BOOKS FOR SALE AT HERALD OFFICE

MUSICAL NOTES.

Wilhelmj is in Melbourne.

Arigo Botta is said to have made 60,000 francs by "Meistofele."

Saratoga has five bands this season, the cost of which will be about \$40,000.

Dr. Arthur Sullivan has gone on a cruise with the Duke of Edinburgh to Russia.

Herr Richter's concerts in London have called forth the highest encomiums from critics.

Miss Minnie Hauk's "Carmen" has been one of the greatest successes of the London season.

The Chicago Saengerfest proved a disastrous financial failure, a loss of nearly \$25,000 having been sustained.

Rafael Joseffy, the well known pianist, is likely to give two concerts in this city some time during this coming fall.

Colonel Mapleson, after a provincial season of opera in England, will sail for the United States on the 27th of September.

Two Stradivarius violins, dated 1714 and 1730, were sold at the Hotel Drouot, Paris, last week, for 4,600 frs. and 4,050 frs. respectively.

It is said that Mme. Marie Rose's American contracts will be cancelled, her engagements in England keeping her there till next spring.

Louis Maas has been chosen conductor of the Boston Philharmonic Society. Mr. Maas is a graduate of Leipzig, and a thorough musician.

Any professional or amateur company who desires to perform the comic opera of "Patience" is at liberty to do so. So says an authority.

The management of the Imperial Opera House, Vienna, and the Theatre Royal, Munich, forbid artists to receive calls during the progress of the piece.

The price of tuition at the Leipzig Conservatory is 100 thalers per year, equal to \$80 in our currency; and the charges at Stuttgart about eight thalers less.

David Popper, the violinist, has been honored by the presence of the royal family at two concerts given recently at Copenhagen. He also played at court, and the King has decorated him with the order of the Dannebrog.

Mr. Mapleson will withdraw from the management of Italian opera in London and devote himself exclusively to giving operas in the United States. It is concluded that London cannot support two Italian opera-houses during the same season, hence Mr. Mapleson leaves the field to the Brothers Gye, of Covent Garden.

Richard Grant White is writing a "History of Music in America" for Scribner's Magazine. We understand it is to comprise sketches of the famous singers and instrumentalists, and the time of their appearance in America, reception, ability, etc. His first installment will consist of a history of opera in America.

Manager Samuel Colville says: "If light opera could be given here with the perfection of detail it receives abroad, I think it would succeed much better than it does. I saw 'La Mascotte' abroad, and the American performances of it bear no comparison, although I will say that we have artists who are fully competent vocally."

Miss Eulalia Risley, of Houston, Texas, pupil of Mme. Marchesi, who appeared in concert, for the first time, in Vienna, recently, has been engaged by Mr. Maurice Strakosch for five years. She is said to possess a contralto voice of great richness and beauty of timbre, with a compass extending over two octaves and a half from the lower C.

We respectfully suggest, says the *Home Journal*, that Count Geza Lichy, the one-armed piano-forte virtuoso, and Baroness Alphonse Weiss, the recently discovered one-armed artist, strike up a partnership, and as one has a wonderful left and the other a wonderful right hand, they would constitute a very artistic whole.

Mr. Carl Rosa has arranged for a grand season of English opera at Her Majesty's Theatre, London, beginning January 14th, 1882, during which the principal novelties will be an English version of "Tannhauser," by Mr. J. P. Jackson; Mr. Villier Stanford's "Veiled Prophet," and a new version of "Pauline." Mr. Carl Rosa is also in negotiation for an English version of Signor Boito's "Meistofele."

Adelina Patti says: "I wish to visit the home of my youth while my voice is still at its best, and I would not like the Americans to say, 'Patti has come merely to get money.'" She contradicts the statement that she would demand such extravagant prices as twenty dollars a seat, and says that the matter of the price of seats is left entirely with her own manager. Her stay in America will not exceed four months, during which time she expects to give about thirty concerts. If suitable arrangements can be made she is inclined to give a few representations of those operas in which she has made her fame. Nicolini comes with her.

LATEST TELEGRAMS.

Earthquake Shock.

Vienna, 28.—A violent shock of earthquake occurred at Agram this forenoon.

A Pre-emption Decision.

Washington, 28.—The attorney general has decided where home-steads, where they are on public lands, have been made by a settler, the land so entered cannot, whilst such entry stands, be set apart by the President for a military reservation even prior to the full completion of the title of the settlers; but where pre-emption has been made of public lands, the land covered thereby may be set apart for such reservation at any time previous to the payment and entry by a settler under the pre-emption law.

Judge Clifford's Funeral.

Portland, 28.—The funeral of Justice Clifford took place this afternoon from the First Parish Church, prior to which private services were held at the residence of his son, William Henry Clifford. Among the distinguished men from abroad were Chief Justice Waite, Associate Justice Miller, General Banks, Judge Blodgett, of Chicago, Knowles, of Providence, and Hackett, of New Hampshire. The pall bearers were Chief Justice Waite, Judges Miller and Fox, Chief Justice Appleton, of Maine, Judge Walton, of Maine, Bion Bradbury and John Rand, of Portland. Rev. Dr. Hill, president of the Harvard University, conducted the services. The remains were buried in the Evergreen Cemetery.

European and African Troubles.

London, 28.—The *Globe* this evening says: We are officially informed that a report has reached the India office, representing that the army of the Ameer of Afghanistan has been completely defeated by the forces of Ayoub Khan. The same journal learns from another source that serious troubles have arisen in consequence. The Ameer and India government are greatly concerned at the gravity of the situation. The dispatch says a battle was fought yesterday between Ayoub Khan, during which one of the Ameer's regiments deserted and went over to the enemy. Thereupon the Ameer's troops fled, leaving their guns and baggage on the field.

Tunis, 28.—The Arabs have left this vicinity. The panic is subsiding but the greatest anxiety prevails concerning the safety of Europeans in the interior.

New York, 28.—It is announced that the Arabs attacked Hamman Elben, a place barely nine miles from Tunis. Gen. Lozerot has taken measures to protect the capital in the event of the insurgents venturing so far.

"Maud S" Makes Another Attempt.

Belmont Park, Pa., 28.—Ten thousand people saw "Maud S" try to beat her record. The crowd was the largest ever congregated at this track, and was good natured and well behaved. The 2.25 class summary: "Bell Oakley" 1-1-1; "Grey Chief" 3-3-2; "Early Rose" 2-2-3; best time 2:20 1/2.

"Maud S" was then brought out and after jogging around the track was sent off on the first heat. She reached the quarter in 33 1/2, the half in 1:05 1/2, the three-quarters in 1:34 1/2 and completed the mile in 2:12 without the slightest indication of a break. In the second heat she reached the quarter in 32 1/2, the half in 1:03 1/2 and the three-quarters in 1:37 1/2. Here she hesitated, swerved and finally made a bad break, but recovering came under the wire in 2:13 1/2. Third and last heat was almost a repetition of the first being trotted cleanly and squarely, without even a skip. First quarter, in 33 1/2; half, in 1:05; three-quarters, in 1:38 1/2, and mile in 2:12 1/2. These three consecutive heats are the best ever trotted by any horse in the world. Vanderbilt was present and watched the race from the judges' stand.

Watching for Internal Machines.

New York, 28.—The shipment of infernal machines to England considerably agitates the representatives of the various steamship lines here, over the probability of a shipment of dynamite by their vessels. They say they are exercising all the precautions in their power to avoid similar possible occurrences, and the agents in charge of outward bound freight to English ports are watching packages, especially those shipped by strangers, that might contain dynamite.

Domestic.

Columbus, O., 28.—Bookwalter has accepted the democratic nomination for governor of Ohio.

Orange Court House, Va., 28.—Montpelier, the home and birthplace of President Madison, was sold to dry at public auction for \$20,000, to Jas. L. Carrington, of the Exchange Hotel, Richmond.

Guitteau's Divorce.

New York, 28.—The Brooklyn *Eagle* prints, to-day, the story of the proceedings in the action brought in the Kings County supreme court, in the fall of 1874, by Annie J. Guitteau against the now notorious Chas. J. Guitteau, for absolute divorce on the ground of infidelity. The case was referred to Louis Fuller, as referee, to take the testimony and report, and the case came on for hearing in January, 1874. Mrs. Guitteau produced but three witnesses; one of those was her husband, who appeared voluntarily. He testified that he was her husband and had resided in New York State for more than a year, which, as the law then stood, was all he could testify in a divorce case to which he was a party. The third witness was the principal one, and her appearance would indicate that Guitteau helped to prove the case against himself. This witness was Clara Jennings. She testified she had known Guitteau since the previous August and that the charges of infidelity against him were true. It is believed that Guitteau secured the attendance of this witness, and it is said he first informed his wife of his infidelity and gave her the necessary information to enable her to secure the divorce. He put in no defense. The referee reported in favor of the plaintiff, and on the 4th of April following, a motion was made before Justice Pratt to confirm the report of the referee, and between that date and the 11th of the same month, the judge handed down a decision confirming the report and signing the decree of divorce. In the fall of 1873, when the divorce proceedings were in progress and while Guitteau was carrying on his liaison with Clara Jennings, he was frequenting the rooms of the New York Young Men's Christian Association, and his name is on books of that institution as a visitor. He was a member of the Calvary Baptist Church and attended religious services of the church. After the divorce was granted, Guitteau was cited to appear before the committee on discipline of the church and when he appeared he confessed his immoralities and professed penitence, but the committee had no faith in his professions and expelled him from the church.

Treasury Topics.

Washington, 28.—Secretary of the Treasury Windom, to-day, addressed a communication to the collectors of customs at Boston and New York, from which ports it is alleged the infernal machines and combustible material which recently arrived at Liverpool, were shipped. The letters contained instructions to the officers to use every endeavor to ascertain the name of the consignor of the packages. The secretary, speaking on the subject, said that while it may be impossible for the collectors to ascertain directly the name of the person, he hopes, at least, they may recover a clue which will lead to the detection of the guilty ones.

The treasury department, to-day, purchased 510,000 ounces of fine silver for delivery at the Philadelphia, San Francisco and New Orleans mints.

Coupon 5 per cent. bonds redeemed with interest to date, on presentation up to the close of business to-day, aggregated \$125,100,000. The amount of bonds which matured July 1st, redeemed by Treasurer Gilliland to date, \$13,197,400. Orders have been given to close up as speedily as possible the London agency for the receipt of 5 and 6 bonds for continuance at 8 1/2 per cent.

The treasury department has ordered the discontinuance of the manufacture and sale of gold tokens stamped "quarter dollars" and "half dollars." Persons manufacturing or selling such tokens are rendering themselves liable to penalties of both fine and imprisonment.

Secretary Windom has approved Judge Robertson's bond as collector of customs of the port of New York.

Still Kidding.

Washington, 28.—Official bulletin. Executive Mansion: The President passed a pleasant day and has taken his nourishment with apparent relish. His temperature continued normal until 5 p. m., when the usual moderate afternoon rise occurred and causes no anxiety at present. His pulse is 104; respiration normal. (Signed) F. H. HAMILTON, D. W. BLISS, J. K. BARNES, J. J. WOODWARD, R. B. REYBURN.

The following cablegram was sent tonight:

To Lovell, Minister at London: This afternoon and evening the President has shown some increase in pulse and temperature, but not sufficient to create uneasiness on the part of his physicians. At 11 o'clock he is sleeping very quietly. (Signed) BLAINE, Sec'y.

Some Precautions.

New York, 28.—The Emperor of Russia will leave shortly for Moscow. Far hundred police have already been sent on as a precaution, and troops are being stationed all along the line between Moscow and St. Petersburg, about 400 English miles.

The Erratic Pistol.

Quite a scene occurred in the dining room of the Chamberlain House while the guests were at supper. At one of the tables sat Perry Mallen, alias C. McCoy, and Mrs. W. Shannon. The husband of the woman walked into the room and drawing a revolver began firing. At the time he was standing beside J. B. McLenon, who at once came to the rescue by knocking Shannon down after he had fired two shots, neither of which took effect. As it was, Shannon was the only one hurt, and he now carries a badly bruised countenance as the result of the well directed blows which felled him. The balls found lodgment in the walls of the room, after having passed near the bodies of several persons. The cause of the trouble comes from the claimed intimacy which has taken place within the past few days between Mallen and Mrs. Shannon. Mallen was arrested the other day at the instigation of Shannon, and after being held until the next day, was turned loose yesterday morning and was found by Shannon last evening as above described. This morning Mallen was again arrested upon a warrant sworn out against him by Shannon, and several important points of law are likely to come up before the courts for adjudication. All the features connected with this affair are of a very unpleasant character, and as the matter is to be thoroughly sifted by the courts it is not proper for us to discuss the various features connected with the affair, but leave the law to settle all points at issue and then we can give all that is of public interest to our readers.—Ogden Pilot.

Wm. Jennings & Sons.

This morning the business notice of Wm. Jennings & Sons, will be found in these columns. The firm has taken stock and made some admirable improvements since the large establishment first closed, for a few days last week. Now they are again prepared for business and will furnish their customers and the public generally with anything that can be desired in the shape of dry goods, gents' furnishing goods, groceries, queensware, and hardware, at wholesale or retail. The firm is one of the oldest, as well as one of the most reliable in the city, and has earned and still maintains its popularity by the greatest consideration for the wants of their patrons, and by conducting an upright business.

The "Umatilla."

New York, 28.—A Brooklyn evening paper has the following: One of the finest ships that ever floated is taking her first cargo at the Empire stores in this city. She is the steamer *Umatilla*, of the Oregon Improvement Company's line. The *Umatilla* was completed but a few days ago, at the works of John Roach, at Chester, Pa. She is built entirely of iron, and although of enormous size, her lines are symmetrical throughout. Her length is 325 feet, and she has a tonnage of 3,000. She is equipped with compound engines, with a nominal horse power of 5,000. The steamer has fore and aft rigging. The steering apparatus is operated by steam and she also has appliances for steering by hand. Electric lights furnish the illuminating power on board. Officers' quarters and accommodations for passengers are of the best and finest character, and the crew is also provided for. The *Umatilla* is among the best of American built ships. She is one of five vessels designed for the Oregon Improvement Company, three of which have been completed. The *Umatilla* is commanded by Captain Frank Worth, and she will sail from Brooklyn on Sunday for Portland, Oregon. She will call at Rio Janeiro and then pass through the Straits of Magellan and around to the Pacific, stopping at Valparaiso on her northward journey. After discharging her cargo, which consists almost entirely of railway supplies, the *Umatilla* will come down the coast to San Francisco and will then ply between Seattle, at the head of Puget Sound, in Washington Territory, and San Francisco.

Isaac McLean.

Troy, 28.—McLean, arrested in Albany, yesterday, on a charge of threatening to shoot Governor Cornell, left Whitehall this week, as he said, to seek the sunken treasure of Captain Kidd. McLean, who is regarded as insane, says we have too many governors. He has several documents from the pension office, and claims that the British government owes him \$15,000.

MULLOY & PAUL, Proprietors, SALT LAKE, AND SALE STABLES, 24 to 26 SECOND SOUTH STREET. All Orders left at Hotel Promptly Attended to.

Mining Patents.—Full sets of blanks for application for Mining Patents—approved form—to be had at the HERALD Office.

ROYAL
BAKING POWDER
Absolutely Pure.

Made from Grape Cream Tartar.—No other preparation makes such light, flaky hot breads, or luxurious pastry. Can be eaten by dyspeptics without fear of the ill results from heavy indigestible food. Sold only in cans, by all Grocers of ROYAL BAKING POWDER CO., New York.

Persons Using Water for Sprinkling Lawns, Etc.

THE SCARCITY OF WATER AT the present time for irrigating purposes renders it necessary that the greatest economy be exercised in the use of water from the mains during the months of August and September. All persons using water from the pipes for sprinkling lawns and flower beds should confine its use to what is necessary to keep vegetation alive, and thus avoid the necessity of issuing time cards.

It is hoped that all persons interested will see the necessity of complying with this request, and so avoid more stringent regulations.

G. M. OTTINGER, Supt. Water Works. July 28, 1881. J29
